

Age

The peak age for RN's and LPN's is 41-50. This age group is 31% of the total RN population and 29% of the total LPN population. LMHTs have 32% of the total population in the 41-50 age bracket. (pg. 57)

Gender

7% of the RN population are males and 7% of the LPN's are male. For LMHT's 26% of the total are males, 5% of ARNP's and 48% of RNAs are male. (pg. 62)

Ethnicity

For the RN group 78% are classified as white with 76% for LPN's and 73% for LMHT's. Race is an optional category on the application so data is incomplete. (pg. 62)
