

# Windows 8 & Internet Explorer 10 - Compatibility Issue

It's best to select the Compatibility View prior to starting the renewal process, however if you have started the renewal process it's not too late to fix issue.

If you started the Online Renewal Process and answered all of the question and gotten to the point of double checking your answers and the system will not show you the window to input your payment information try this fix and once you click the "Compatibility View" the screen should display the payment screen, instead of the Log In screen.
